EXPERIENCE

SDE-1

Jan 2026 – Present

devX AI Labs

Surat, India

- Working on diverse projects including a **large-scale community forum platform** and **ecommerce D2C solutions**, building scalable architectures and implementing features to enhance user experience and drive business growth.
- Designing and developing robust, scalable backend systems and responsive frontend interfaces using modern web technologies.
- Collaborating with cross-functional teams to deliver end-to-end product features, from requirement analysis to deployment.

Full Stack Developer

July 2025 – Jan 2026

NJ Group

Surat, India

- Worked with **React** and **Spring Framework** to design, develop and maintain robust enterprise applications.
- Part of the NJ India Invest E-Wealth Registration Team, focused on integrating third-party APIs for identity verification and compliance processes.
- Implemented multiple CRON jobs to automate critical backend workflows and minized manual back-office intervention.
- Contributed to real-time client onboarding by developing secure, scalable backend and frontend solutions.

Full Stack Developer Intern

Jan 2025 – June 2025

NJ Group

Surat, India

- Developed cron job logic and implemented multi-threading to enhance performance.
- Contributed to the maintenance and support of existing Spring Boot applications by resolving complex issues.
- Optimized SQL queries to improve database performance and reduce system latency.
- Used the DHTMLX library to generate dynamic and interactive reports for seamless data analysis.

PROJECTS

CareerHub | [Github](#)

Php, Laravel Framework, MySQL

- A Website for **job** seeker and recruiter to revolutionize the job search and job post experience.
- In this system **recruiter** can manage all operations related to job.
- Features** like search job by name, category and filter jobs by location, salary, etc.

Expense Tracker | [Github](#)
